Pursuant to Rule 16, Federal Rules of Civil Procedure, the Court **ORDERS** that the following revised schedule will govern deadlines up to and including the trial of this matter:

Any amendment to add patent claims requires leave of court so that the Court can address any scheduling issues.

10/26/2021	Defendant serves preliminary invalidity contentions in the form of (1) a chart setting forth where in the prior art references each element of the asserted claim(s) are found, (2) an identification of any limitations the Defendant contends are indefinite or lack written description under section 112, and (3) an identification of any claims the Defendant contends are directed to ineligible subject matter under section 101. Defendant shall also produce (1) all prior art referenced in the invalidity contentions and (2) technical documents, including software where applicable, sufficient to show the operation of the accused product(s).
